INTERNATIONAL Astrology 2012 DAY

BEYOND 2012: DAWN OF A NEW ERA! - Saturday, March 17th, 2012: 10 AM – 8:00 PM

International Astrology Day (IAD) is an annual observance/holiday celebrated by astrologers and astrology enthusiasts. It is held on the spring equinox, the day the Sun enters Aries, which is the first sign of the Tropical Zodiac, and has long been considered the astrological new year. In observance of IAD the [Association For Astrological Networking \(AFAN\)](#) co-ordinates astrological lectures and events around the world. A portion of the proceeds from the **IAD - San Francisco** event will be donated to AFAN.

OPENING Celebration- 10:00 AM

The Upside of Downtimes Rio Olesky - 10:15 AM – 11:15 AM

Economic meltdown, political corruption and pure greed have all combined to create hard and depressing times for many people. Part of this can be attributed to various cyclic energy patterns that astrologers understand. But the cold analysis of a series of setbacks doesn't ease the pain and suffering experienced by so many. If we embrace the energy that mirrors these challenges, we can find ways of using it creatively. By not being in resistance to changes, regardless of how radical they may be, we may find some unexpected benefits in these times that can propel us to greater heights of personal growth and consciousness development.

Money in the Horoscope Angel Thompson - 11:30 AM – 12:30 PM

To determine the wealth potential of a birth chart, traditional astrology looks to houses 2, 6, and 8, but it does not end there. We will delve deeper into the whole horoscope to explore the relationship between karma and cash flow, self-worth and financial freedom, and how genetics, heredity, character, attitude and unconscious mental blocks affect finances. You are not destined to suffer poverty. Learn techniques to improve a low wealth quotient. Discover money friendly transits and when to tune into the good luck of the Jupiter cycle.

LUNCH - 12:30 PM - 1:45 PM

USA - History and Predictions Don Cerow - 2:00 PM – 3:00 PM

From 1996 until 2003, Don wrote yearly "Predictions for the USA" for a national magazine. Through extensively studying the historical record year after year, Don has gained an intimate grasp on the characteristics and personality of our country's soul. Join us as we journey through more than two hundred years of our past, examining many of the patterns found in the US chart, and of how they manifested. Learn what the stars have had to say about this great land, and help unravel the mysteries of the future as we ponder the celestial combinations of the upcoming year.

Changing the Narrative: Mercury/3rd House Laura Nalbandian – 3:30 PM – 4:30 PM

With the Pluto/Uranus squares starting in 2012, reality may feel like it is spinning beyond our control. . . or maybe the illusion that we have control will be cracking. Changing the narrative is one of the most powerful tools we have for establishing healthy control in our lives. We all have many stories, thousands of them in fact . . . stories that shape our perceptions of the world around us, and of ourselves. This internal narrative informs the meaning we give to everything. Most of the time we don't have a conscious clue as to what those stories are and how much power they have on our lives. As we move forward into a new era, we are forced to look at old mind-sets and opinions that no longer serve us in a healthy way. Important transits to Mercury and the 3rd house are prime times for shifting or changing these inner narratives.

KEYNOTE ADDRESS: The Uranus-Pluto Cycle: Harbinger of Radical Change Rob Hand - 5:00 PM – 6:30 PM

-- In the mid 1960's there was a conjunction of Uranus and Pluto that defined the 60's. This aspect more than any other signified the energy of revolutionary change and coincided with the birth of the counter-culture and the "New Age." Now we are coming to the first square of the two planets and already we see upheaval in the Arabic world. In this session we will explore the Uranus-Pluto cycle throughout history and see to what extent this kind of activity has coincided with radical change in the past.

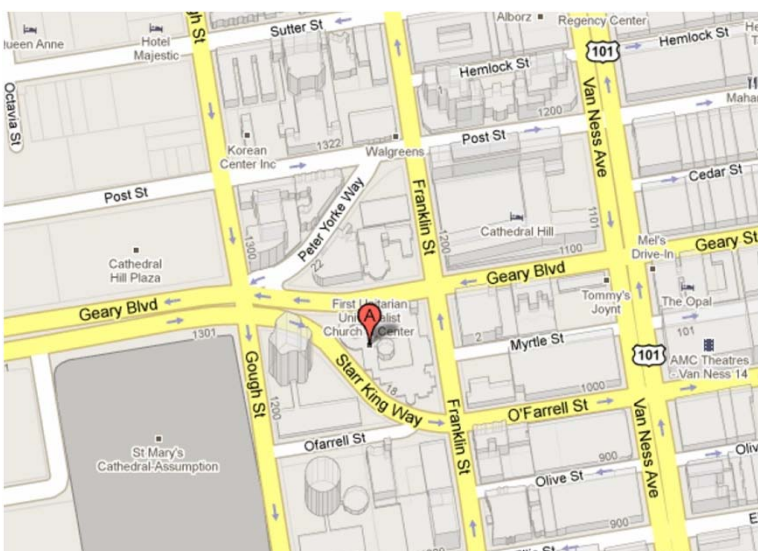

WINE AND CHEESE RECEPTION - 6:45 PM – 8:00 PM

ROB HAND POST CONFERENCE WORKSHOP: AN INTRODUCTION TO MEDIEVAL NATAL CHART ANALYSIS

Sunday, March 18th, 2012 - Fort Mason Center, Building C, Room C370, 10:30 AM – 5:30 PM, with break for Lunch

After several years of working with techniques of medieval natal astrology, it is now becoming clear exactly how to organize the examination of the natal chart and to reach conclusions regarding an individual's health, earning capacity, career, relationships and all of the other issues that modern astrologers want to look at. The medieval approach is extremely systematic but not difficult to learn. Participants will have hands-on experience with their own charts. All participants should have a reasonable knowledge of basic modern natal astrology.
